

Sisvel announces new terms and conditions for its DVB-T2 Licensing Program

Stuttgart, 26 January 2018 – Sisvel Germany announced today that the terms and conditions of its DVB-T2 Licensing Program have been revised to comprise new categories of licensed products. Sisvel's DVB-T2 program offers a license to essential patents owned by British Broadcasting Corporation (BBC), DTVG Licensing, Electronics and Telecommunications Research Institute (ETRI), Fraunhofer-Gesellschaft zur Förderung der angewandten Forschung e.V., RAI – Radiotelevisione Italiana S.p.A, TDF S.A.S. and IMT Atlantique (ex Telecom Bretagne and member of IMT: Institut Mines Telecom ex GET).

The licensing program, previously limited to consumer decoder products, has now been extended to cover both professional and consumer products which comprise either or both

- a DVB-T2 transmitting, encoding or modulating functionality (“Encoder function”) and/or;
- a DVB-T2 receiving, decoding or demodulating functionality (“Decoder function”)

The Patent Owners have agreed on a Standard Royalty Rate for each category of the licensed products as per the central column of the table below. However, provided that the licensee is in full compliance with its obligations under the license agreement, then the royalty rate payable in respect of each Licensed Product shall be calculated under the Royalty Rate for compliant licensees as per the last column of the table below.

Type of DVB-T2 Licensed Product	Standard Royalty Rate Per Unit	Royalty Rate Per Unit for compliant licensees
Licensed Consumer Product with one of Encoder or Decoder function	€ 0.75 (seventy-five Eurocents)	€0.60 (sixty Eurocents)
Licensed Consumer Product with both Encoder and Decoder functions	€ 1.00 (one Euro)	€0.80 (eighty Eurocents)
Licensed Professional Product with one of Encoder or Decoder function	€ 18.00 (eighteen Euros)	€15.00 (fifteen Euros)
Licensed Professional Product with both Encoder and Decoder functions	€ 24.00 (twenty-four Euros)	€20.00 (twenty Euros)

About DVB-T2

The Digital Video Broadcasting – Terrestrial 2 (“DVB-T2”) is the most advanced standard for broadcasting digital television on terrestrial networks, offering a substantial increase in transmission capacity compared to DVB-T. The DVB-T2 standard was published in the form of a Blue Book by the DVB Project in June 2008 and converted into the formal standard EN 302 755 by the European Telecommunications Standards Institute (“ETSI”) in September 2009.

For additional technical information relating to the DVB-T2 standard, visit: www.dvb.org.

About Sisvel

Sisvel is a world leader in managing intellectual property and maximizing the value of patent rights. Founded in 1982, the Sisvel Group is global in scope and reach, with companies in Italy (Sisvel SpA and Sisvel Technology in None Torinese), the United States (Sisvel US in Arlington and Los Angeles), China (Sisvel Hong Kong), Japan (Sisvel Japan in Tokyo), Germany (Sisvel Germany in Stuttgart), Luxembourg (Sisvel International), and the United Kingdom (Sisvel UK in London), with over one hundred professionals worldwide with technical, legal, and licensing expertise. Sisvel has a long history of managing successful patent portfolios including those related to the audio compression standards known as MP3 and MPEG Audio, and widespread technologies such as OSD (On Screen Display), ATSS (Automatic Tuning & Sorting System), and WSS (Wide Screen Signalling - for automatic switching of television image formats). Sisvel currently operates patent pools and joint licensing programs for the DVB-T2, LTE/LTE-A, 3G, Wi-Fi and Recommendation Engine, together with its Sisvel Wireless licensing program.
