Brief Introduction of iPiF2024:

Adhering to the principle of “promoting high-end dialog among experts in the field of intellectual property, improving the level of intellectual property management of enterprises and promoting the innovation and development of industries”, Intellectual Property Industry Forum (iPiF) brings together relevant government departments, industry associations, enterprises, law firms, intellectual property agencies, intellectual property service providers and other industry participants to focus on the latest intellectual property policies at home and abroad and carry out in-depth discussions on intellectual property protection in specific industries, with a view to becoming a professional, international and multi-dimensional exchange and learning platform in the field of intellectual property.

iPiF has plenary and sub-forums, of which the plenary discusses the common issues of industries and the sub-forums discuss the characteristics of intellectual property of specific industries to meet the needs of participants from different industries.

iPiF is an annual forum held once a year.
